Software Installation

Windows 7™

ICT Shared Service Centre

Windows 7

Version: 1.3

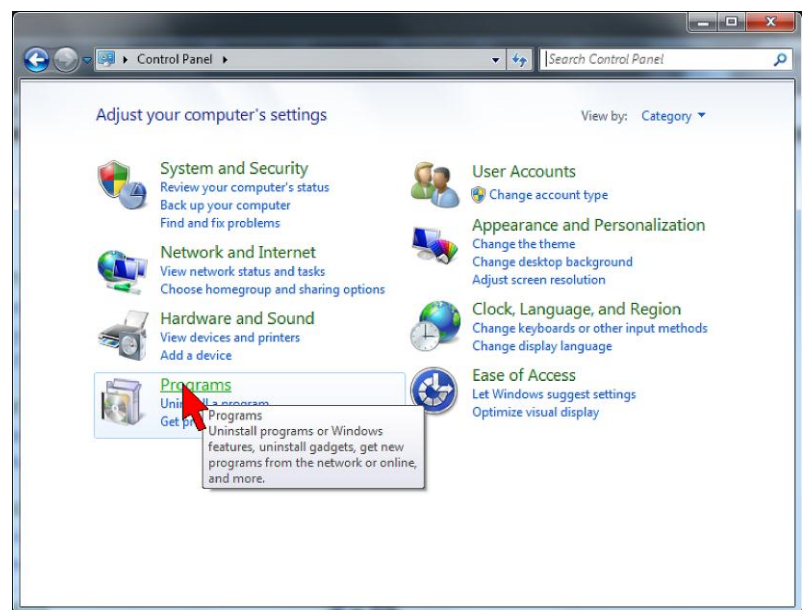

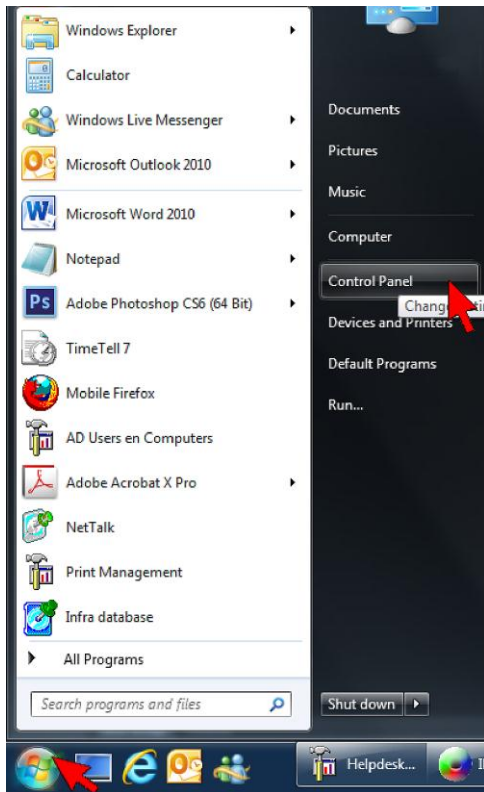

Date: 08-05-2014

In NUWS it is possible to install some software yourself or to make a request for additional software at the ISSC Helpdesk.

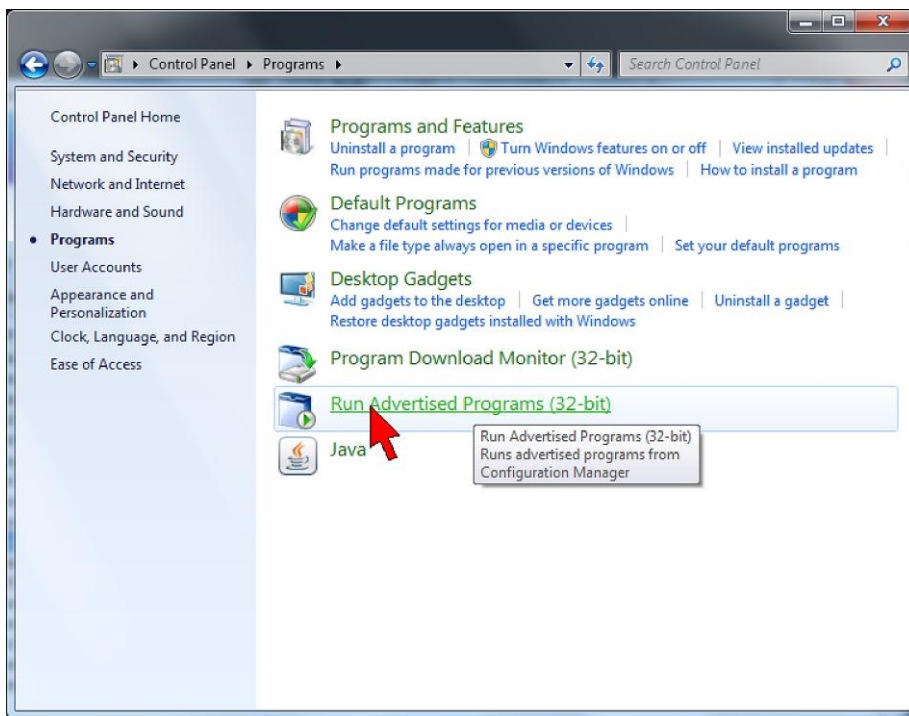

Run Advertised Programs

With the Run Advertised Programs it is possible to install some additional software yourself. In the example below, we are going to install FireFox

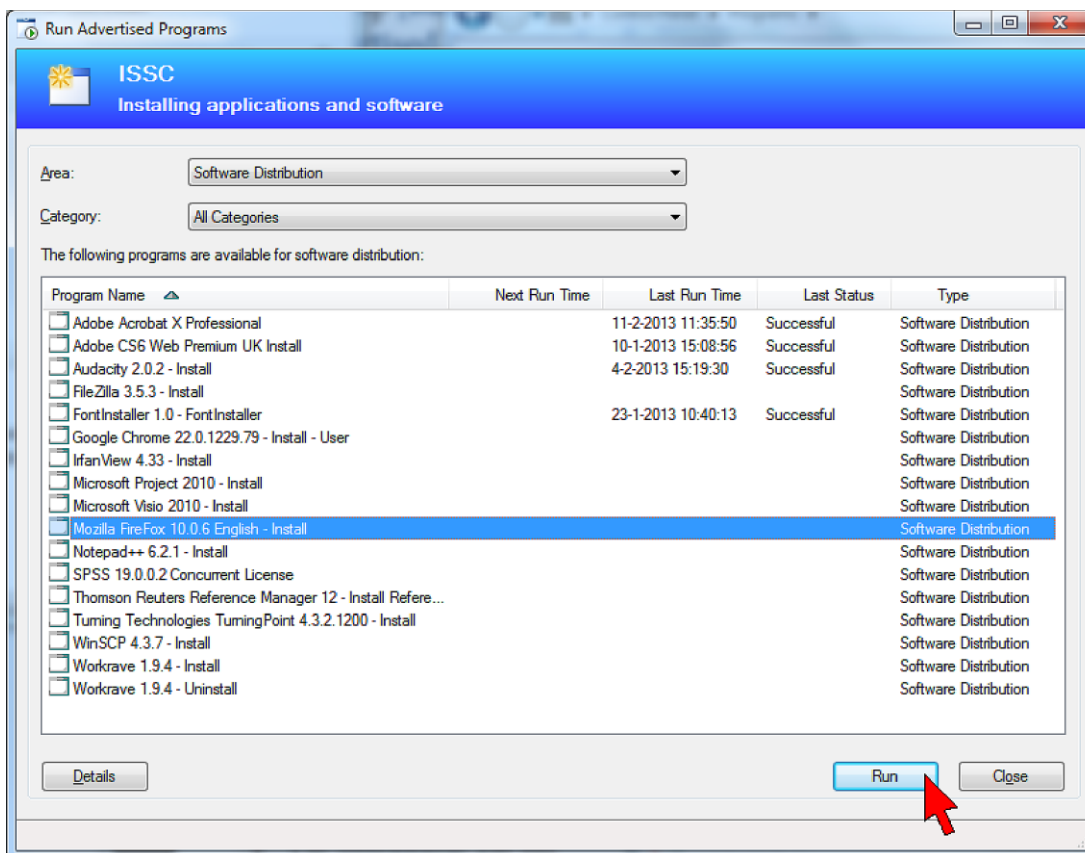

1) Select the **Windows button**, followed by the **Control Panel**

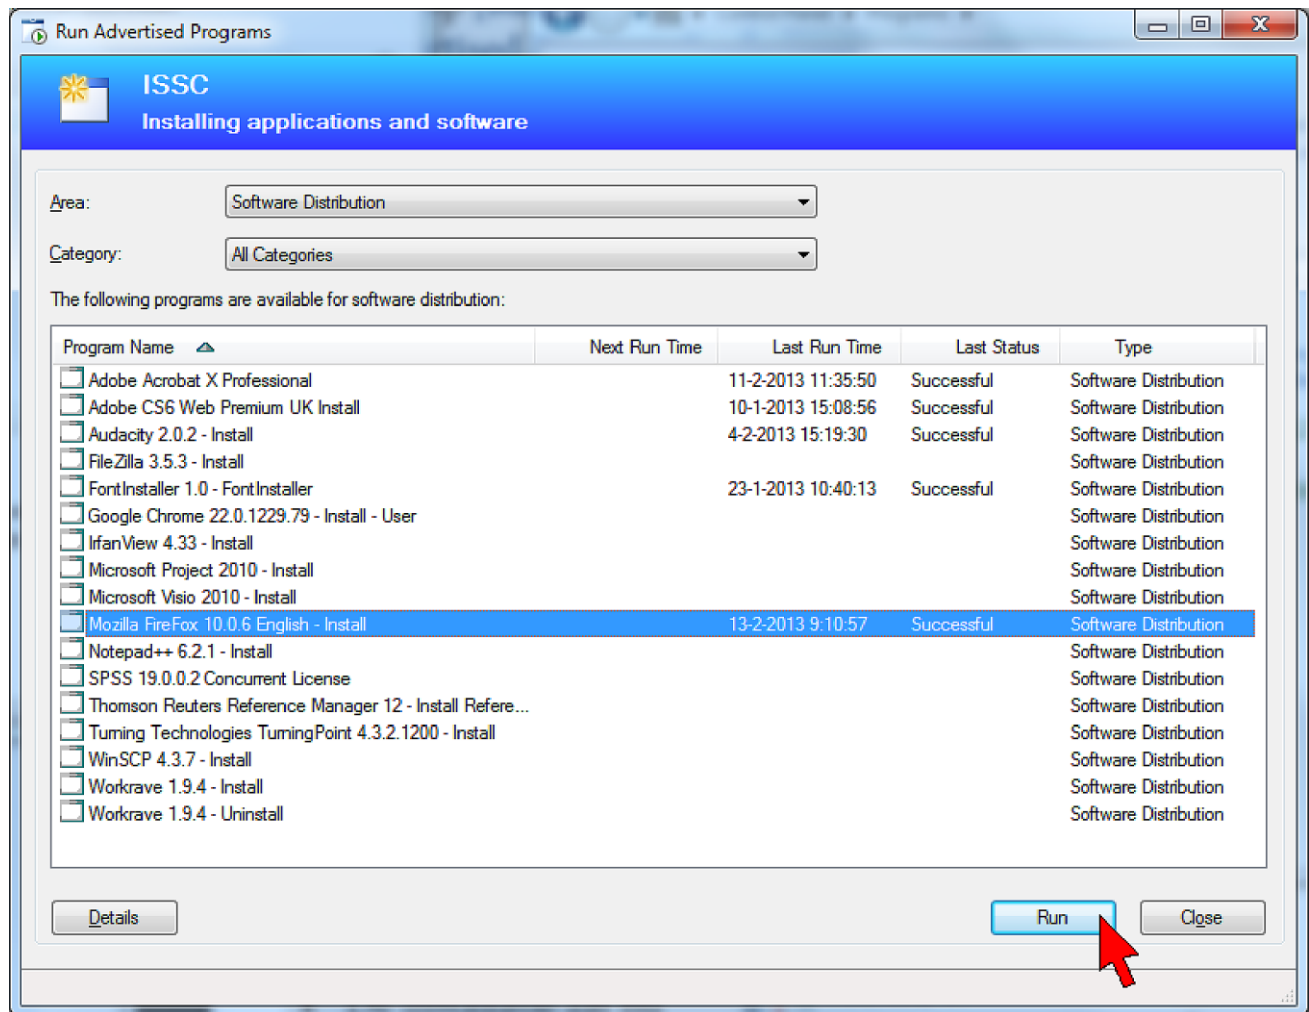

2) Select “Run Advertised Programs”

3) Select “Mozilla FireFox...” and then select “Run”

4) When FireFox installation has been completed, you will notice the date/time information in the Last Run Time column and Last Status: **Successful**

Other Programs

If you are in need of other software, please contact the ISSC Helpdesk or fill in a request form on the ISSC website.
